Professional Summary

Full-stack developer skilled in React, Node.js, and RESTful APIs. Experienced in building reusable UI components, responsive layouts, and database-driven applications using MongoDB and Firebase. Strong focus on clean code quality, accessibility, performance optimization, and Agile collaboration using Git.

Work Experience

Senior Operations Executive — Straive Pvt. Ltd.

Jan 2023 – Jan 2024

- Built reusable UI components to maintain consistent layouts across product modules.
- Coordinated feature delivery across Agile sprint cycles.
- Maintained Git workflows to improve peer review quality and version control.

Malware Associate Analyst — Comodo Security Solutions Pvt. Ltd.

Mar 2022 – Dec 2023

- Analyzed and classified malware samples to identify behavioral patterns and potential threats.
- Collaborated with the security and QA teams to validate detection accuracy and improve false positive rates.
- Documented threat intelligence findings and contributed to process improvements in malware analysis workflows.

Operations Executive — SPI Global

Oct 2019 – Mar 2022

- Standardized digital content layouts using HTML/CSS.
- Performed quality validation before publishing deliverables.

Malware Analyst — Comodo Security Solutions Pvt. Ltd.

May 2018 – Dec 2018

- Performed static and dynamic analysis of malware samples to detect and document malicious behavior.
- Collaborated with the cybersecurity team to investigate, validate, and report on potential security threats.

Projects

MemeHub

[Demo](#) · [GitHub](#)

- Developed an interactive meme editor with image upload, text styling, and drag-and-drop canvas alignment.
- Added real-time preview and configurable font size, color, and position controls.
- Implemented Firebase Auth & Storage for login and cloud meme saving.
- **Tech Stack:** React, Firebase Auth & Storage, Tailwind CSS, Canvas API.

Medicine Reminder App

[Demo](#) · [GitHub](#)

- Built medication scheduling dashboard with daily reminders and dosage history tracking.
- Secured user-specific records using Firebase Authentication and Firestore.
- **Tech Stack:** React (TypeScript), Firebase Firestore & Auth, Vite, Tailwind CSS.

Travel Itinerary Planner

[Demo](#) · [GitHub](#)

- Created a multi-day travel planner with packing lists and expense breakdown.
- Integrated weather and map APIs with offline-use data caching.
- **Tech Stack:** React, Node.js, Express, MongoDB, Firebase, Tailwind CSS, OpenWeatherMap API.

Niche Community Platform (MERN)

[Demo](#) · [GitHub](#)

- Built topic-based discussion platform with post creation and threaded conversations.
- Implemented JWT authentication and secure protected routes.
- **Tech Stack:** MongoDB, Express, React, Node.js, JWT, Tailwind CSS.

Education

Masai School — Full Stack Web Development

2025 – Present

B.E. Computer Science and Engineering — AAA College of Engineering and Technology

2014 – 2018

Skills

Languages: JavaScript, Java, HTML5, CSS3
Frameworks: React.js, Node.js, Express.js, Tailwind CSS
Databases & Tools: MongoDB, Firebase, MySQL, Git, Postman
